

# Are you ready to **redefine possible?**

Reduce waste. Achieve your sustainability goals. Contribute to a greener future. With our circular approach to plastics, we're redefining the possibilities for sustainable plastic solutions.

## CREATE

We create & supply sustainable plastic solutions

## RECYCLE

We process, clean & recycle the plastic into certified recycled resin

## RECOVER

We collect landfill-bound plastic material, providing a new resource for creating plastic solutions

### Sustainable plastic solutions

At Revolution, we deliver a wide range of sustainable solutions and custom closed-loop programs using our unique, circular approach to manufacturing and recycling. We not only supply you with the highest quality products and reliable service you need, we also supply you with comprehensive ways to reduce waste and build a more sustainable business.

We recover, clean and process more than 300 million pounds of material each year, turning it into the highest quality, certified post-consumer and post-industrial resins that are ideal for use in a wide variety of flexible film applications.

We have a longstanding track record of partnering with companies across a broad scope of industries. Our sustainable loop solutions can be tailored to fit the unique needs of a variety of markets and help any business meet ESG goals and contribute to a more sustainable future.

### Join our circle

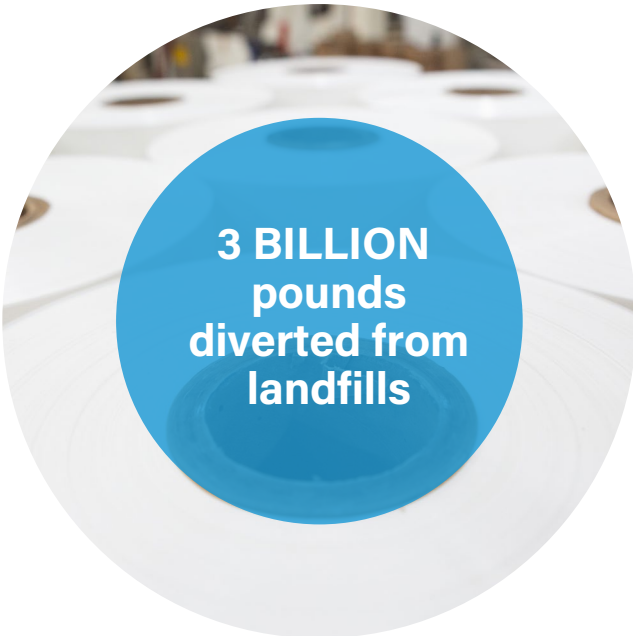

If you're serious about finding smarter, more effective approaches to sustainability, contact us to discuss how we can help you meet your goals and operate more responsibly.

**Together, we can redefine possible.**

Consumers and companies rely on Revolution to provide sustainable, high-quality plastic solutions through our core divisions. We're all working together to protect the environment — while improving the way businesses operate.

**SUSTAINABLE AGRICULTURE:** We're the leading manufacturer and supplier of irrigation polytube and ag films, providing farmers with efficient, environmentally responsible grower solutions that increase crop yields and conserve water. Achieve sustainability results with our wide variety of irrigation tubing, ag films, silage and grow bags, ground cover, liners and more.

**SUSTAINABLE COMMERCIAL:** We manufacture a wide range of construction, industrial and commercial supply solutions that meet or exceed USGBC and LEED requirements, including high-performance film, sheeting, barriers, bags and can liners made with up to 94% certified PCR.

**SUSTAINABLE CONSUMER:** We produce reusable carryout bags and back of house solutions that promote your brand and are made with up to 40% recycled content for retail, foodservice and grocery customers. With a wide variety of sizes, shapes, colors and full printing capabilities, we offer fully customized, environmentally-friendly solutions.

**SUSTAINABLE STRETCH:** We produce high-quality and high-performance sustainable stretch film & wrap solutions containing up to 10% recycled content for transportation, warehousing and commercial applications. Pre-stretched, hand and machine rolled film comes in multiple gauges, lengths and performance types to meet your needs.

**SUSTAINABLE MATERIALS:** We recover, clean and process low-density and linear, low-density polyethylene film into high-quality, post-consumer and post-industrial recycled resins ideal for use in flexible film products. Our certified LDPE and LLDPE PCR resins are approved for food-contact packaging and are ideal for use in retail, commercial and industrial applications.

If you're serious about finding smarter, more effective approaches to sustainability, contact us to discuss how we can help you meet your goals and operate more responsibly. **Together, we can redefine possible.**
