

# Deliver Safe™

The perfect solution to help your customers experience high quality meal delivery.

With this tamper-resistant meal delivery bag, food arrives the same as when it left your restaurant. The flat bottom makes for easy loading of product and assurance containers won't tip or spill.

- **Tamper-resistant confidence:** Easy to follow opening instructions printed on the bag.
- **Quality you can depend on:** Bags are made from thick plastic that won't rip or tear when carrying heavier items. Venting and perforation options available.
- **Flexible quantity ordering:** Minimum prints run as low as 12,000 bags.
- **Enhance your brand experience:** Customizable sizes and printing for your brand & container needs. Attractive soft loop handle (single handle) gives your take out packaging a sophisticated look.

## **Sustainable plastic solutions**

We have a longstanding track record of partnering with companies across a broad scope of industries. Our sustainable loop solutions and custom closed-loop programs can be tailored to fit the unique needs of a variety of markets and help any business meet ESG goals and contribute to a more sustainable future.

Whether you need to irrigate your crops or line the trash cans in your restaurant, we make the sustainable plastic products you need, using as much recycled content as possible.

From collections programs to tolling and brokerage, we recover, clean and process more than 300 million pounds of material each year. The recovered material is turned into a broad line of certified sustainable materials. Our PCR resins are ideal for use in a wide variety of flexible film products.

## **Join our circle**

If you're serious about finding smarter, more effective approaches to sustainability, contact us to discuss how we can help you meet your goals and operate more responsibly. Together, we can redefine possible.
