Almond Cover Film

Provide clean, protected storage for your almond harvest or stockpiles with high performance cover sheeting

Keep your harvest protected with almond stockpile cover film that comes in a multitude of size and thickness options, tailored for your environmental performance needs. Our brand new, state-of-the-art, system produces premium quality products because every component of our equipment is designed to produce agriculture film. This ensures the highest quality and consistency in our process, and a superior performing product for you. Buying from Revolution also ensures a smarter, more sustainable film solution for your business. We offer complimentary collection of your used ag film as part of our Sustainable Loop(TM) model that includes recovery, recycling and repurposing of used ag plastics.

- **Made in America:** Proudly made in America and supporting our local economy
- **Protection:** Avoid harmful moisture & environmental exposure
- **Proven Quality:** With excellent strength & performance characteristics
- **Variety of Options:** Available in various width, length, and color combinations
- **Collection Services:** No cost collection of used film via Push for Pick Up™ mobile app

Our free, proprietary Push for Pick UP™ mobile app makes requesting collection of your used ag film easy and convenient. Download the app for Apple or Android devices and learn more about requesting collection at p4pu.com.

Are you ready to **redefine possible?**

Reduce waste. Achieve your sustainability goals. Contribute to a greener future. With our circular approach to plastics, we're redefining the possibilities for sustainable plastic solutions.

Revolution[®]

Sustainable plastic solutions

We have a longstanding track record of partnering with companies across a broad scope of industries. Our Sustainable Loop™ solutions and custom closed-loop programs can be tailored to fit the unique needs of a variety of markets and help any business meet ESG goals and contribute to a more sustainable future.

Whether you need to irrigate your crops or line the trash cans in your restaurant, we make smarter, more sustainable plastic products for your business.

From collections programs to tolling and brokerage, we recover, clean and process more than 300 million pounds of material each year. The recovered material is turned into a broad line of certified sustainable materials. Our PCR resins are ideal for use in a wide variety of flexible film products.

Join our circle

If you're serious about finding more sustainable, effective solutions for plastic film, contact us to discuss how we can help you meet your goals and operate more responsibly. Together, we can redefine possible.
